Affordable Access Control for Modular Buildings

If you don't offer security access control as a Value Added Product, you are leaving money on the table. Until now, it has been impossible to get a good ROI with access control because the systems were too expensive and complicated, forcing customers who need access control to go to a local security company. **With VIZpin, they can come to you.**

Modular Building All-in-One Kit

Our Modular Smartphone Access Control kit is a fraction of the cost of other systems and only takes a few minutes to install. You can easily move your VIZpin system from unit to unit, it is simple to manage and there is no special training.

- < 6 month ROI
- No more keys or cards - your phone is your key
- No network connection needed
- Grant or revoke access for anyone from anywhere
- Tracks 30 days of activity
- Includes the first 500 users
  (more can be purchased)
